- **RESEARCH GUIDING** U.G. Project Guiding: 16
- As staff pharmacist monitored and recorded patients' medications and IV therapy. Provided consultations with doctors, nurses and patients to ensure proper therapy. Ordered all medications and kept the department well supplied.
- Implemented a mobile cart system with pharmacists making rounds and dispensing medications at Nurse's stations. System has increased quality control and improved relations between Nursing and Pharmacy staff.
- Developed a centralized piggyback program which relieved nurses of the duty of mixing solutions and turned it over to pharmacy technicians. Program has given techs greater responsibility and has significantly reduced errors and increased quality standards.
- Responsible for keeping Pharmacy, Medical and Nursing staffs current on effects and uses of new medications and developing policies regarding their use. Consult extensively with doctors on difficult cases. Currently developing a Clinical Program to provide more in-service training for doctors and nurses and completing development of a kinetic counseling program to better serve doctors. Represent the Pharmacy Department on the Pharmacy and Therapeutic Committee.
